FINANCIAL AND COMMERCIAL MONEY MARKET.

FRIDAY, Jan. 19-6 P. M. The stock market was a little unsettled to-day.

The tendency was upward at the first board, but several of the leading fancies de lined considerably.

Canten Co. fell off ? per ceut; Harlem, ?; Reading Bailroad, ?; Michigan Central, !; Panama Railroad, ?; Michigan Central, !; Panama Railroad. read, 1½. Indiana 5's a vanced ½ per cent; Virginia 6's, 1; Erie Binds, 1875, ½; Itlinois Central Boude, ½; Cumberland Coal, ½; New York Central Railroad, t; Eric Railroad, t. The cales of State stocks com-prised lots of Indiana, Kentucky, Virginia, and Mis-souri. Eric Rail road bonds, particularly those of the new issue, were freely offered. Illinois Centrals are well maintained. The new loan has been nearly filled up. Among the fancies, the movement in Cumberland Coal attracts the most attention. There were cash sales to-day at 34 per cent-a higher price than has been realized for many months. Racent discoveries are reported to have been made on the company's property, of a very valuable character, to which is attributed the enhanced market value of the stock. Nicaragua Transit does not move much either way. It will have its turn in time, and eccupy the attention of speculators. The company have just added a new iron boat to the lake route, and twenty new Troy coaches to the line over the ed road from Virgin Bay to San Juan and the lathmus is crossed with great expedition, safety and comfort. The report of the Michigan Central Railroad Company has not had a favorable per cent dividend in shares will not net much at current rates. Reading Railroad is working stea dily upward, under the influence of the large stock dividend and a show of large profits.

After the adjournment of the board, the following sales of stocks and bonds were made at auction :-The Mahoney and Shamokin Coal stock property

was sold on the terms mentioned below. They were the property of Gouverneur Morris, and the sale was made recessary on account of embarrassment, arising from the failure of the Massrs. Schuyler:prising from the failure of the Massrs. Schuyler:—
1252 shares Mahoney & Shamokin Imp. Coof 350 each.
2652 Treverton and Susquehans RR Coof \$20 each.
404 Northumberland and Union Co Land As. of \$20 each.
Sold in forty lots of 31, 52 and 20 shares respectively,
in the order in which they stand, the par value of each
lot being \$2,700, at \$500 a \$715 per lot.
362 shares Mahoney and Shamokis Imp. Co of \$50 each.
506 Treverton and Susquehanna RR Co of \$20 each.
142 Northumberland & Union Co Land Ass. of \$20 each.
Sold in eleven lots, as designated above, at \$740 per lot. At the second board quotations receded a fraction

and there was less doing in the leading railroad fancies. Ede railroad declined | per cent., Cam. berland Coal 1, Harlem 1, Canton Co. 1. Illinois Central Bonds advanced 1 per cent, and Illinois Central Railroad 1 per cent. The transactions at the Assistant Treasurer's of-

fice to-day, were as follows:-

have been taken from the vaults of the Merchants' Bank, have not been found, and probably will be gut down to prefit and loss. The story of its having been taken from the vault by thieves prowling about the bank, is too abourd to be for a moment of tertained. The probability is that the report of the robbery was made for the purpose of patching to some old defalcation. Tweaty-dve thousand dollar in gold cannot disappear from the vaults of a bar without somebody inside the bank knowing som

The gross revenue, expenses, not income, and p ocat of net income on cost, of the Boston and Pite burg Railroad Company, in each of the past seve years, have been as annexed :-BOSTON AND FITCHBURG RAILBOAD.

This table does not show the full extent of the d teriorating process. In 1844 the company paid a div dend of ten per cent, and its stock commanded premium of thirty per cent in the market. The stock now sells at a discount of sixteen per cer and the company passed the last dividend. Th depreciation has occurred in the face of a steadi in reasing income. The net profits, however, o were less than in either of the two previous year and but about eighteen thousand dollars above the of 1848, when the gross income was about thr hundred thousand dollars less. The same process going on with all railroads in the New Englassistes, and will soon commence on those in oth sections of the country, of more recent construction Nearly all the Western railroad companies co menced by paying enormous semi annual dividence and the market value of their stocks ran rapidly to high points. The changes we predicted has been realized. The dividends which were uncarned have, in soome instances, been cut off entirely, who others have been reduced to very moderate rate and the slocks have fallen from a premium ranging from twenty to fifty per cent, to a dicount ranging from twenty to thirty per cent below par. Holders of railroad stocks, parti ularly those of the Western States, have been ecived by the declaration of immense stock dividends. These dividends, declared purposely to bit credit, have run up the capital stock to such figur that now, when no more money can be borrowed, the payment of dividends has ceased, or is made in and depreciation is going on silently and gradually, but effectually, and, although railroads must con-tinue more or less productive, it will be only to those who make investments in them at very re-

It is stated that a cargo of guano has lately arrived at Richmond, Va., and that the captain of the wresel obtained it from an island he never visited before, but refuses to give any further information. The following paragraph, published in the HERALD, of the 12th inst., may throw some light upon the

Several shipping houses in this city have for some time been engaged in procuring gnano from Isle Aves, a small island situated in lat. 15, lon. 60%, about 400 miles from the coast of Venezuela, 200 miles south of St. Thomas, and 150 miles west of Gaadaloupe. This island contains a large quantity of guano, and several cargoes of it have been recently brought to this port. A few weeks since, while the crews of our vessels were engaged in securing their cargoes, they were driven away by an armed ship belonging to the government of Venezuela, and the island taken possession of by a body of soldiers. Now, the question is, to whom does this island belong? There is an island called Aves, just off the coast of Venezuela, which undoubtedly belongs to that government, but the Isle Aves we refer to was formerly under the Danish flag, and has been claimed by the French. At all events, it is pretty certain that Venezuela has no just claim to it.

A cargo of this guano was taken into Baltimore. A cargo of this guano was taken into Baltimore, and upon analysis proved to be quite as good for agricultural purposes as that from the Chincha lahands. There are several islands just off the coast of Venezuela covered with guano, of which vessels from this country have obtained several cargoes.

The Superintendent of the Banking Department has declared a final dividend of 11 per cent on the outstanding certificates for redemption of the notes of the At as Bank, Clymer, if presented within six months from January 10.

menths from January 10.

The finances of the State of Maine are in a satisfactory condition. The receipts from all sources for the past year amounted to \$461,825 45, and the expenditures to \$343,818 04, leaving a balance of penditures to \$343,818 04, leaving a balance of \$108,107 41. This balance, however, is subject to

warrants drawn and unpaid, and several specific appropriations, amounting in the aggregate to \$71,448 46, which would leave the actual balance of \$56,658 95. The State debt is only \$431,500, exclu-tive of the \$250,000 of the Massachusetts land debt, which is redeemable. The article of \$25,000 each, from 1863 to 1872. The available cash funds of the State are \$648,289 36. In addition, the State owns about 2,000,000 acres of land. The increased cost of criminal prosecutions is attracting ettention, having more than doubled within the past six years. In 1849 the costs in criminal prosecutions were \$14,926 86; in 1850, \$23,578 66; in 1851, \$26,877; in 1852, \$33,366 89; in 1853, \$25,333 97; in 1854,

The upper house of the Legislature of Indiana has passed a hill repealing the Free Banking law of that State. The probability is that the lawer house will not concur. We do not see any necessity for this precipitate legislation. The law, as it now stands, is defective; but it can be so amended and improved as to answer all the required purposes. this State it was very defective, and we had failures innumerable among the new banks. Instead of repealing it, the Legislature went to work and amend ed it from time to time, until it has been made near ly perfect. A convention of the Indiana F.ee Benks have established an agency at Indianapolis for the redemption of their notes, and this agency has classified the banks. The first class, which a taken at par, embrace the following banks:-

The market is pretty well supplied with dry goods; but the demand for these is very limited, and prices of most articles are still somewhat un, settled. Country jobbers are coming in rather slowly, and the local trade are buying very little. Hopes are entertained, but only by a few, that an improvement in this regard is near at hand. If it occur shortly it will be not a little unexpected and serviceable to all parties. The period of depression has been a protracted and an unbroken one. Some has been a protracted and an unbroken one. Some

relief is now absolutely needed to enable opera-to go on in the business and live by it. Some to go on in the business and live by it. Some de-mand exists for choice styles of brown and bleached sheetings and shirtings at steady prices, while cot-ton fiancels, denims, and stills are rather inactive and not very firm. Duck is dull and droo,ing. Ginghams have not varied. Lawns are scarcely no-ticed,in view of the auction sale of Portsmouth goods advertised for the 31st inst. Nankins and Osnaburgs are sparingly dealt in at declining prices. There is rather more doing in desirable quali its of printing cleths and prints; but no charge has occurred in the value of these. Stripes and ticks are dull and heavy. Nothing really new can be noticed in woollen fabrics. The supply is not a very large one, but is ample enough for this season. The demand is yet limited, and is likely to continue so for some time hence Prices are without improvement. Blankets rule about the same. Cassime: es, cloths and doeskins are in limited request, at feebly-sustained rates There is not much movement in flannsis, jeaus or lineeys, which are also quoted languid. Mouselaine de laines are in moderate demand at old figures. Satinets and tweeds are unchanged. The trade in foreign p oductions is very triffing, and insufficient to enable us to present a detailed notice thereof. The arrivals are not large, and the stock on the market is a moderate one. Holders have no great is eliration to force sales, and are reluctant to make any further reduction in prices. Thus this branch of the business stands at present, with little being done therein, and without any striking symptom o

The circular of Mr. Isaac O. Davis, of Cincinnati gives the following review of that market for the week ending Wednesday evening, Jan. 17, 1855:-gives the following review of that market for the week ending Wednesday evening, Jan. 17, 1855:—
The money market continues quiet and unchanged. Currency is very scarce, and discounts in a regular way are almost impossible. Borrowers are compelled to depend altogether upon outside loans, and at very high rates. First class paper is discounted at from 12 to 24 per cent, and second class, when discounted at 24 per cent, and second class, when discounted at 24 per cent, and second class, when discounted at 24 per cent, and second class, when discounted at 24 per cent, and second class, when discounted at 24 per cent, and second class, when discounted at 24 per cent is a periodic disposition among our business men to make every exertien, and, if no sessary, submit to sacrifices, for the purposes of meeting there is abilities; and we are pleased to notice that but few comparatively, have as yet been compelled to yield to the pressure of the times, and stop payment. And mach credit should be given for the indulgence which has been extended towards each other in these times of financial distress, which has become so general throughout-the lard. For when confidence is wanting, distruct and suspicion are ever ready to take its place. The market for Fastern exchange is rather heavy, at 3 premium buying, and 1½ selling rates; short time bills sell, to a limited extent, for interest, and half per cent a morth off. New Orleans sight checks sell from three quarters to one per cent premium. Time drafts are unal-cable at any price. There is no flued price for Indiana State Stock money now. The work of classifying the notes still goes on, and banks reported first class to-day, are made secord class to-morrow, and no reliable quotations of discount can be given. It is articipated that the margin of discount will be greater for a while, in consequence of the impossibility of obtaining State bonds, until after the 25th inst. when the present Auditor's term of office expires. Stocks in the West are quiet, but small amounts changing

Reader, I peddied over a thousand bottles of this in the vicinity of Boeton. I know the effects of it is every case. So sore as water will extinguish firs so cure will this cure humor. I never sold a bottle of it but that sold another; after a trial, it always spenis for itself. There are two things about this berb that appear to me surprising—first, that it grows in our pastures, is some places quite plantiful, and yet its value has nover been known until discovered it in 1845, second, that it should care all kinds of humor. In order to give some idea of the sudden rise and great popularity of the discovery, it is to title per day. In April, 1856, I peddied it, and sold about its to titles per day.
